Group Art Unit: 2173
Examiner: Raymond J Bayerl
Title : **METHOD AND SYSTEM OF CREATING FLOATING
WINDOWS FOR DISPLAYING SPONSOR INFORMATION,
MESSAGES OR ROGRAMS IN NON-OBTRUSIVE AREAS
OF THE GRAPHIC USER INTERFACE OF A SOFTWARE
APPLICATION**

AFFIDAVIT OF DON MOSSMAN IN SUPPORT OF APPLICANT'S PETITION TO REVIVE

I, Donald Mossman, the undersigned and resident of 30 Liberty Hill Drive, do solemnly affirm under oath that:

1. I have been trying to expedite the issuance of the above referenced application using the applicant's power of attorney. This would include having correspondences from the USPTO mailed to my current address listed above.
2. As part of this process I had a telephone conversation with the Examiner regarding the allowability of the above referenced patent application. During that conversation the examiner suggested a few changes, which were listed in his Notice of Allowability.
3. In all honesty I completely misunderstood the changes required to be made to one of the drawings and believed that the application was ready for issuance using the examiner's notes. I even paid the patent issuance fee, shortly after receiving the Notice of Allowability. A copy of the cancelled check is herein attached to this affidavit.
4. Therefore the delay in response to examiner's Notice of Allowability resulting in abandonment of the instant application was completely unintentional.

Signed under oath on this the 5th day of December 2005.

A handwritten signature in black ink that appears to read "Donald Mossman".

Donald Mossman
